

Surgical Scheduling and Fees

Please note that 10% of the surgical fee will be collected at the time of surgical scheduling as a deposit. This deposit amount will be deducted from the total surgery fee.

Deposit and Fee Details:

- \$500.00 of this deposit is non-refundable if the surgery is cancelled.
- Your current quote allows for one reschedule; an additional rescheduled procedure will require a new quote.
- The remainder of the surgical payment is due and payable in full 2 weeks prior to surgery. In the event you cancel within 2 weeks of the scheduled surgery date, the deposit will be forfeited.
- Your surgical fee includes the surgeons' fees, facility and anesthesia fees (for in-office procedures), and all preoperative and postoperative visits. If surgery is to be performed at a surgery center or hospital, additional facility and anesthesia fees from the surgery center or hospital will be incurred in addition to the above surgeons' fees.
- The proposed surgeons' fees will be honored for 90 days. All other fees are current estimates only.
- Fees may be paid by cash, check, VISA, American Express, Mastercard, Discover and Care Credit.
- Credit card transactions will incur a 3% surcharge on their quote total.

Additional Fees:

- In the interest of safe surgery, additional tests or lab work may be ordered and would be your financial responsibility. This may include tests such as blood work, EKG, medical and or cardiac clearance, among others. Prescription medications are individualized to your needs, the cost is not included in this quote, but may be covered under your insurance.
- If your physician feels a revision is needed in the first 9-12 months after surgery, the surgeons' fees may be reduced if all recommended post-operative instructions are followed. You would be responsible for any facility, anesthesia and supply costs.
